

Google Groups

3 types of groups

- Contact Groups
 - Demo
 - One way communication to a list of email addresses
- Domain Groups
 - Demo
 - Set at the domain level by the administrator
 - Able to be sent to by everyone in the group
- Individual Groups
 - Demo
 - Similar to Domain group, but with individual control
 - Setup Group and walk through options
 - Able to share documents with a group
 - If you set your class as a group you could use that one email

Set Up a new group and walk through settings

Can use a group to share docs and other google docs

Show what the group looks like to the end use

Show how to change email and other setting for end user

JMC IA

Teacher Email Groups

<http://www.ahst.k12.ia.us/departments/technology/teacher-email-groups>

Using Google Forms to collect addresses and Direct add to include them

Making all these pieces work together to create one cool project
