

Screencasting

I want you to leave her today with...

- An understanding of what a screencasting tool is
- An understanding of how they can be used in a classroom and with a learning management system
- See example of how they are used in a classroom
- Toolbox of free screencasting tools that you can use
- Experience using one of the screencasting tools

What is Screencasting

WIKIPEDIA
The Free Encyclopedia

- **A screencast is** a digital recording of computer screen output, also known as a video screen capture, often containing audio narration. The term screencast compares with the related term screenshot; whereas screenshot is a picture of a computer screen, a screencast is essentially a movie of the changes over time that a user sees on a computer screen, enhanced with audio narration.

Screencast in Action

- Example of screencast

Why Screencast

- Flipped Classroom
 - Instruction happens outside of classroom
 - Classroom time is for work
- Students have notes to review as many times as they need
- Teaching can happen anywhere, anytime
- What else???
